The screenshot shows a web browser window with the address bar displaying 'localhost:8000/makanan/1#'. The page content includes a 'Catering' section with a photo of a plate of Nasi Goreng (fried rice) topped with vegetables and a slice of lotus root. Below the photo, the text reads 'Nasi Goreng 15000', 'Catering', and 'Stok: 20'. There are two input fields: 'Your Name' with the value 'Oryza V' and 'Your E-mail' with the value 'mail@gmail.com'. The browser's developer tools are open on the right, showing the 'Elements' panel with the HTML structure of the page. The structure includes a document type declaration, an HTML root element with attributes 'lang="en"' and 'class="ogyvnm1 idc0_344"', a head section, and a body section. The body contains a navbar and a container div. The 'Console' panel shows a message 'Hints for inactive CSS properties Identify CSS styles that are entirely valid but'. The 'Styles' panel shows the 'body' element selected, with a filter set to 'show .cls +'. The 'What's New' tab is active, displaying a message about Chrome 108 updates. The bottom of the browser window shows the Windows taskbar with various application icons and the system clock indicating 4:13 PM on 12/4/2022.
